**VISION ENGRAVING & ROUTING SYSTEMS NOW OFFERING
HIGH-SPEED 50,000 RPM SPINDLE**

High-Speed Spindle is Ideal for Metal Engraving

(Phoenix, AZ) – Engraving and routing machines manufacturer, Vision Engraving & Routing Systems, is now offering a new high-speed spindle from NSK America as an option for their medium- to large-format engraving tables. With a maximum speed of 50,000 RPM, this high-performance spindle is perfect for deep metal engraving in stainless steel, aluminum, and more. The spindle is available in 100 – 240V for global operation, and is an option for the company's 16" x 12" and larger engraving tables.

For more information about the high-speed spindle for metal engraving, or for questions about engraving and routing machines, please contact the Vision sales office at (888) 637-1737 or visit online at www.visionengravers.com.

About Vision Engraving & Routing Systems: VISION ENGRAVING & ROUTING SYSTEMS manufactures a complete line of computerized engraving and routing machines. With over 28 years in business, Vision has established a reputation for the highest quality engraving products. Proudly made in the USA, Vision's product line offers a wide range of rotary systems that will suit most any marking application. The Vision product line includes a variety of machines for a range of budgets and applications for business, from small-format and specialty engravers to large-format, heavy-duty engravers and routers. Vision also manufactures an extensive line of engraving fixtures, clamps, and other work-holding devices that help engrave more effectively and efficiently.
