PRESS RELEASE

RASTER™ PEN BRAILLE INSERTER FOR VISION ROUTER/ENGRAVERS

Vision Engraving Systems (Phoenix, AZ) now offers an attachment compatible with the Raster™ Pen Braille insertion device as an option for their line of engraving and routing systems. The Raster™ Method of Braille and Raster™ Pen are licensed, patented products owned by Accent Signage Systems, Inc., Minneapolis, MN. Vision-Pro software includes Braille fonts and is fully compatible with the Raster™ Method. Vision machinery allows precise placement of the Rasters™, which are essential for shops producing ADA-compliant signage.
