VISION ENGRAVING SYSTEMS ANNOUNCES NEW VIDEO ON THE MAX PRO ENGRAVER

Vision Engraving Systems (Phoenix, AZ) announces a new online video featuring its MAX Pro engraver. The video highlights the outstanding versatility of this machine, including its ability to engrave flat, round, and odd-shaped items in a variety of materials, including metals, glass, and plastic. The video also showcases special features of the machine, including its laser layout preview, rotary vise for engraving round items, a water system for glass and ceramic engraving, and the ability to run from many industry-leading software packages. An ideal machine for the jewelry and gift markets, the video shows in detail the machine's ability to engrave rings, gift items, and wine and champagne bottles and glasses.

To view the video in English or French (Mac and PC versions are available for viewing and for download), visit <http://www.visionengravers.com/html/videos.html>. For more information, please contact the Vision sales office at (888) 637-1737 or visit online at www.visionengravers.com.

***About Vision Engraving Systems:** VISION ENGRAVING SYSTEMS manufactures a complete line of computerized engraving and routing systems. With over 25 years in business, Vision has established a reputation for the highest quality engraving products. Proudly made in the USA, Vision's product line offers a wide range of rotary systems that will suit most any marking application. Vision Systems are used worldwide in industries such as trophies and awards, sign-making, advertising-specialties, corporate identification and promotion, die and plate making, personalized gifts and jewelry, product and parts marking, and many others. The Vision product line includes a variety of machines for a range of budgets and applications for business, from small-format and specialty engravers to large-format, heavy-duty engravers and routers. Vision's rotary systems include the company's own state-of-the-art electronics, which ensure efficiency and accuracy. Vision also manufactures an extensive line of engraving fixtures, clamps, and other work-holding devices that help engrave more effectively and efficiently.*
