

## **Vision Engraving & Routing Systems Announces New Distributor In Australia, Alfex CNC!**

Vision Engraving & Routing Systems is pleased to announce that Alfex CNC Australia is now their exclusive distributor in Australia. Alfex CNC started supplying machine tool accessories to Australian manufacturers and job shops in 1978, soon adding CNC machines to their list of products. They also have been selling Vision's line of engraving and routing equipment for over 10 years. Their philosophy of representing a select range of complimentary products that have a track record of performance and reliability makes Vision and Alfex CNC the ideal partnership for offering quality CNC Engraving & Routing Equipment and service to the Australian market!

For more than 31 years, Vision Engraving & Routing Systems has been manufacturing computerized marking systems and accessories. The success of the Vision line is a direct result of our reputation for long-lasting, high-quality machines. Vision Systems are proudly manufactured in Phoenix, Arizona, U.S.A. by an experienced team that is dedicated to excellence.

“We are very excited to welcome Alfex CNC as our exclusive distribution partner in Australia”, said J.B. Benson, Sales Manager for Vision, “Their enthusiasm and ‘know how’ will illustrate to our current customers that we are dedicated to providing the best equipment and support possible.”

“One of the most exciting things for us is knowing that Vision Engraving & Routing Systems share the same core values as Alfex CNC – to supply high quality machine solutions backed by an excellent level of support!”

Christian Buhagiar – Business Development Manager, Alfex CNC Australia.
