Vision Engraving & Routing Systems Announces New Distributor In Ireland & The United Kingdom, CSI Manufacturing!

Vision Engraving & Routing Systems is pleased to announce that CSI Manufacturing is now their exclusive distributor in Ireland & The United Kingdom. Founded 1995 in Dublin, Ireland, CSI stands for Component Source International Manufacturing, and has been providing industrial labels for the Ireland market since 1997. CSI has been an engraving equipment distributor in Ireland since 2003 and an engraving materials distributor for UK/Ireland since 2005. CSI later expanded their distribution of engraving equipment to the UK in 2010. With main offices in Dublin (HQ) and Bristol (UK), CSI Manufacturing and Vision Engraving & Routing Systems are the ideal partnership for offering quality engraving equipment and service to the region!

For more than 31 years, Vision Engraving & Routing Systems has been manufacturing computerized marking systems and accessories. The success of the Vision line is a direct result of our reputation for long-lasting, high-quality machines. Vision Systems are proudly manufactured in Phoenix, Arizona, U.S.A. by an experienced team that is dedicated to excellence.

“With the addition of CSI Manufacturing as our exclusive distribution partner in Ireland and the U.K., Vision is thrilled about what this partnership means for our customers”, said J.B. Benson, Sales Manager for Vision, “Working with a company that truly believes in providing quality equipment, after sales support, and top notch service is exactly what we want to offer our customers worldwide.”

“CSI is delighted to add Vision Engraving to our expanding portfolio of products in the United Kingdom and Ireland states.” said Matt Kirwan, Managing Director at CSI Manufacturing. “We are proud to be associated with another quality global brand in Vision and look forward to servicing and developing the business with our new partners in the future.”
