VISION ENGRAVING & ROUTING SYSTEMS PRESENTS THEIR NEW SMALL SELF-CENTERING VISE

(**Phoenix, AZ**) – Vision Engraving & Routing Systems, is pleased to announce their all new small self-centering vise. Perfect for holding most small items such as name plates, jewelry and small placards. Dowel pin settings allow this item to work with most Vision fixtures for even more versatility. For use with Vision's Express, VE810, Phoenix 1212, 1612 and the 1624.

For more information about the new self-centering vise, or for questions about engraving and routing machines, please contact the Vision sales office at (888) 637-1737 or visit online at www.visionengravers.com.

About Vision Engraving & Routing Systems: VISION ENGRAVING & ROUTING SYSTEMS manufactures a complete line of computerized engraving and routing machines. With over 31 years in business, Vision has established a reputation for the highest quality engraving products. Proudly made in the USA, Vision's product line offers a wide range of rotary systems that will suit most any marking application. The Vision product line includes a variety of machines for a range of budgets and applications for business, from small-format and specialty engravers to large-format, heavy-duty engravers and routers. Vision also manufactures an extensive line of engraving fixtures, clamps, and other work-holding devices that help engrave more effectively and efficiently.
