VISION ENGRAVING AND ROUTING SYSTEMS ANNOUNCES NEW DACS

Vision Engraving Systems (Phoenix, AZ) is pleased to announce its new DACS (Digitally Aligned Cutting System), an alignment tool which provides perfect print-to-cut registration for their CNC routing machines. This easy-to-use system requires minimal training and setup time, and is the most cost-effective, accurate solution for improving digital finishing. Ideal for graphic cutouts and signs, this new system will be available as an option with the company's large routing tables (from 25" x 25" and up).

For more information, please contact the Vision sales office at (888) 637-1737 or visit online at www.visionengravers.com.

About Vision Engraving Systems: VISION ENGRAVING SYSTEMS manufactures a complete line of computerized engraving and routing systems. With over 25 years in business, Vision has established a reputation for the highest quality engraving products. Proudly made in the USA, Vision's product line offers a wide range of rotary systems that will suit most any marking application. The Vision product line includes a variety of machines for a range of budgets and applications for business, from small-format and specialty engravers to large-format, heavy-duty engravers and routers. Vision also manufactures an extensive line of engraving fixtures, clamps, and other work-holding devices that help engrave more effectively and efficiently.
